

Anti-dripping Agent

Anti-dripping-agents (ADA) are effective auxiliary flame retardants against dripping during burning of plastics and polymers. It prevents burning plastic from dripping off and thus meet the requirements of UL 94. Anti-dripping agent is a kind of polymer with a coating on the surface of PTFE particles.

Grade	PTFE (wt%)	Encapsulated polymer	Bulk density	Suitable resins
BX ADA 200	50	MS	0.75±0.15	PC, PC/ABS Alloy, Nylon
BX ADA 201	50	MS	0.4±0.05	
BX ADA 202	50	MS	0.4±0.05	
BX ADA 205	50	SAN	0.6±0.05
